¡Así es la chica que parece la hermana gemela de Emma Watson!

Megan Flockhart tiene 24 años y se está haciendo famosa en las redes sociales porque se parece mucho a la actriz y feminista Emma Watson. Además, Megan ha demostrado que es una gran fan de Harry Potter. ¿Casualidad?

Ella nunca había pensado que se parecía a Emma Watson hasta que un día se disfrazó de Hermione para ir a una fiesta y todo el mundo alucinó.

Estas son algunas de sus fotos de su Instagram:

#happybirthdayhermionegranger ????? thought in celebration I'd do this ? the reason she's my first cosplay is because she's been my fictional role model since the age of 10, thanks to

#jkrowling and through Hermione I have learned the importance of embracing who I am, taking education seriously, standing up for what I believe in and just being a general brave and strong person. #hermionegranger #hermioneweasley #hermionejeangranger #hermionejeangrangerweasley #harrypotter #harrypotterandthecursedchild #happybirthdayhermione

SO I wasn't going to buy #cursedchild until after I had seen it in March because I wanted it to be a complete surprise, but today I woke up seeing everyone else get their books and desperately felt left out. I've been a fan since the age of 10, and I remember getting all my HP books as a child and missed that feeling of excitement. To my surprise my amazing boyfriend @capaldif had pre ordered it for me ???? got it through the mail and fan girded so much I cried ? THANK YOU FRANKIE!!!! He knows me so well ? #harrypotter #harrypotterandthecursedchild #gryffindor #hogwarts
